Features: Award-winning teacher and respected author Laura Little brings her considerable expertise in federal courts, conflict of laws, and constitutional law to the subject. Well-balanced casebook presents the deep jurisprudential lessons imbedded in the conflict of laws subject matter. Proven cases-and-problems pedagogy helps students apply concepts. Maintains a clear presentation of doctrines relevant to current law practice. Thematic approach puts conflicts of law in the context of actual issues confronted in law practice. Clear, straightforward writing avoids the "hide the ball" approach of many other books and maximizes accessibility to difficult material. Innovative organization, beginning with personal jurisdiction, follows the way issues arise in litigation and highlights the importance of forum selection. Highly adaptable modular presentation allows professors to customize approach. Contemporary cases and hypotheticals allow students to apply rules to current situations, while hallmark cases maintain continuity with the development of the discipline. Full coverage of current topics such as Internet issues, same-sex marriage, choice of law clauses, and class actions. International and comparative materials cover global aspects of conflicts. Emphasis on the Restatement (Second) of Conflicts, now the predominant United States approach but insufficiently covered in most other texts. Online PowerPoint slides, charts, and diagrams support teachability. Comprehensive Teachers Manual includes answers to every problem, teaching suggestions, sample syllabi, and a graphical depiction of each main case, as well as unique insights and case backgrounds.
